Tuesday, 21st February 2012

09.30 – 13.30 – Environmental Careers Event

Scottish Agricultural College, King's Buildings

Lecture rooms A, C and D in the Peter Wilson Building

As part of the new programme we will be holding a careers event to help link our students to public and private sector employers in the region.

This event is designed to:

- illustrate the importance of this area of study, and related employment opportunities
- provide inspiring examples of possible careers in this area
- illustrate to students the skills and knowledge they will need to pursue a career in this field
- Provide practical advice on how to pursue your career and the resources available within the University of Edinburgh

The format is 20 min sessions where outside organisations will talk about what they do, and talk about the skills that you need to work in that area.

Audience: There will be about 60 students at the event studying on the following programmes: Environment and Development, Ecosystem Services, Environmental Protection and Management, and Environment, Culture and Society.
