

School of GeoSciences
Annual Postgraduate Programme Review 2013/14

The purpose of this document is to create the opportunity for programme and TO staff to review the past academic year of a postgraduate degree programme and strategically consider the next academic session. The Teaching Organisation will also use this in support of Postgraduate Programme Reviews (PPR). The Director of Postgraduate Teaching will meet with all Programme Directors individually in June of each year.

Programme Title:

Programme Director:

Student Numbers:

FT Overseas	
FT Home/EU	
PT 2 years	
PT 3 years	

Conversion Activity and Trends:

(eg. Please outline trends you have identified in application rates or locality and the conversion activity that has taken place)

Alumni Activity:

(eg. Please outline the alumni activity that has taken place in the past year)

Challenges and Solutions:

(eg. Please outline some of the challenges and solutions you have identified over the past academic year or when considering programme development)

Staff Student Liaison Committee:

(eg. Please outline the issues raised at the SSLC meetings and the response. Please also detail issues raised in regards to marking and feedback turnaround times and the steps taken to improve on rates.)

Resource:

(Please provide a breakdown of the APCs per student, available from programme support staff. Please comment on the potential for building industrial links or any potential resource issues or initiatives.)
